Guinness World Records, known from its inception in 1955 until 2000 as The Guinness Book of Records and in previous United States editions as The Guinness Book of World Records, is a reference book published annually, listing world records both of human achievements and the extremes of the natural world. The brainchild of Sir Hugh Beaver , the book was co-founded by twin brothers Norris and Ross McWhirter in Fleet Street , London, in August 1954.
, London, in August 1954.

The book itself holds a world record, as the best-selling copyrighted book of all time. As of the 2019 edition, it is now in its 64th year of publication, published in 100 countries and 23 languages. The international <u>franchise</u> has extended beyond print to include television series and museums. The popularity of the franchise has resulted in

Guinness World Records

becoming the primary international authority on the cataloguing and verification of a huge number of world records. The organisation employs official record adjudicators authorised to verify the authenticity of the setting and breaking of records
