

Badminton has been confirmed as one of 28 sports included in the Initial Sports Programme for the Los Angeles 2028 Olympic Games.

The decision was announced following an International Olympic Committee (IOC) Executive Board meeting yesterday.

The inclusion is in line with the IOC's commitment to reducing the costs and complexity of hosting the Games, and is subject to the approval of the IOC Session in February 2022.

The complete programme is due to be finalised in December 2024.
